

pvc strip curtains

Specification

Doorfix Ltd offers a quality range of PVC strip curtains and hanging systems to suit a varied range of applications. This ensures that our customers can order precisely the right product for their application.

Once installed they provide an easy and cost effective method of reducing heat loss or retaining chilled air in areas where control of the environment is important. They are also suitable for use in a wide variety of applications:

- External doorways commonly with heavy traffic
- Internal doorways commonly with pedestrianised traffic
- Welding booths - both mobile and fixed
- Sound booths
- Dust, spray and/or fume barriers
- Temperature controlled lorries
- Temporary or permanent partitioning

Offering the following benefits:

- Reducing expensive fuel bills
- Improving workplace safety
- Improving working environment
- Retaining heat and chilled air
- Reducing noise levels
- Reducing dust and fumes

Maintenance

All our products are manufactured to a very high specification. However, planned maintenance can ensure trouble free operation.

Our Service Department can advise on a suitable maintenance agreement.

pvc strip curtains

PVC strip curtains can be installed face fixed or within the opening depending on application.

- Simple to install
- PVC strips can be easily removed and replaced
- Low maintenance
- Allows for variable strip overlap

alloy clamp system

stainless steel hook system
